Super Economy 24 is available to mains and bottled gas customers who use gas for central heating, water heating or fires.

For more information please contact our accounts department on 755500

The conditions of Super Economy 24 Domestic Tariff.

- a This tariff will benefit customers who use gas for central heating, water heating or fires.
- b Payments must be made by monthly direct debit or other acceptable budget method.
- c The standing charge for this tariff is 32.08p per day (exc GST).
- d We will endeavour to visit your property and read the meter quarterly.
If your bill has been produced from an estimated reading, this will be clearly marked just below the consumption details.

If you are not at home when our meter reader calls, we leave a postage paid card on which you can record the meter reading and return it to us. Alternatively you can submit your meter reading by telephoning our meter department on 755592 during office hours or online at jsygas.com.

It is imperative that we receive a reading each six months to ensure the efficient running of your account.
- e Your bankers order will be appraised annually.
- f If your account is in credit you can request a refund on the balance of your quarterly Statement.

Please note, refunds will only be processed against actual meter readings.

Tariff agreements will run continuous and are for a minimum 12-month period. If you wish to cancel the tariff agreement before the end of the minimum 12-month period, this must be requested in writing. We reserve the right to terminate the tariff agreement if the terms and conditions are not met.

For more information telephone 755500 or visit The Energy Centre.

GST

Your account will be calculated as normal using the appropriate tariff. We will then add the GST as required.
